Course overview

With a growing number of working parents in the UK, the need for high quality childcare continues to increase. 6.3 million children received some form of childcare or early years education during term time in 2014-15. For this reason, childcare provision plays a more vital role in modern society than ever before, allowing parents to work and young children to develop and flourish.

This CACHE endorsed course will not only enhance your understanding of child development in the early years, but will also enable you to explore how to create a positive environment in early years settings and to build your awareness of the key legislation that applies in these settings.
